

# SNOWBOARD INSTRUCTOR CERTIFICATION PATHWAY

At CADS, we believe in empowering our volunteers through comprehensive certification programs. Our approach ensures that every competency is touched upon, providing instructors with the tools they need to offer value at each skill level. Our programs are designed to develop a rich set of instructional skills in each member, progressing at a pace that aligns with their lifestyle and level of involvement.

## Prerequisites for all levels

1. CADS Membership
2. CASI Teaching Methodology
3. NCCP Safe Sport Training
4. Countdown eLearning Module

### CADS Level 1 Instructor

The CADS Snowboard Level 1 complete certification is for candidates interested in learning how to teach students and to learn tools and skills to safely and competently teach snowboarding to students of all abilities at a beginner level on learning terrain.

You can take this course as a complete package (all four modules) or as individual modules.

- Level 1 Neurodiverse Module
- Level 1 Sitski Module
- Level 1 VI Module
- Level 1 Outriggers Module

### CADS Level 2 Instructor

The CADS Snowboard Level 2 complete certification is for instructors interested in improving their knowledge and skills to students across all four disciplines. Candidates will learn how to teach students of all abilities at a beginner to intermediate level on beginner level terrain.

You can take this course as a complete package (all four modules) or as individual modules.

- Level 2 Neurodiverse Module
- Level 2 Sitski Module
- Level 2 VI Module
- Level 2 Outriggers Module

### Level 1 Course Conductor

The CADS Snowboard Level 1 Course Conductor certification is an entry-level requirement for training and evaluating candidates for their Ski Level 1 certifications. This is for Ski Level 3 instructors who are ready to expand their skill sets and learn how to train and evaluate candidates using various pedagogical principles including experiential learning.

### Level 2 Course Conductor

The CADS Snowboard Level 2 Course Conductor certification is the final level for training and evaluating candidates for CADS Snowboard Level 1 and Snowboard Level 2 certifications.
