

	Grown	Movement	Kingswood	Head	Salomon	Liberty	Vokyl
Sustainably Harvested materials	Hemp Paulownia	Uses FSC Certified woods	Bamboo core	Bamboo core	Bamboo, Paulownia core	Bamboo core used in 100% of skis	Wood cores from sustainable forestry
Recycled materials							Recycled steel edges Recycled p-tex Recycled base materials
Low toxin products & processes	Pine tree resin glues	Avoids toxic chemicals			Reduced use of fiberglass resins		Water-based printing Minimize use of resins and other toxins
Alternative materials	No fiberglass, plastic or carbon used		Investigating flax alternative for fiberglass		Reduced plastic content		
Alternative energy sources and emissions reduction			Carbon neutral ski manufacturer	Partnered with Cool Earth to protect rainforests	100% Renewable power Insulation, infrastructure and heat recovery systems in factory 100% Biomass heating energy		ISO energy efficiency standard
Waste management practices					Award winning waste management system		Minimized water use and recycling in factories
Packaging & Deliveries			Single annual delivery for all imported materials			Dense-pack shipping methods Ocean shipping Packaging is reusable and recycled	Optimized packing with eco-friendly materials including chlorine-free wood and materials
